Example OESA Output Tables

South Africa Ocean Economy Satellite Account — 2018 data (R million)

Ocean Economy Gross Output (R million, 2018)

SECTOR	OUTPUT
Living Resources	20,256
Marine Minerals	142,769
Marine Construction	135,414
Ship & Boat Building	5,555
Marine Transport	43,430
Coastal Tourism	45,841
Total	**393,265**

Ocean Economy GVA (R million, 2018)

SECTOR	GVA	SHARE
Living Resources	10,485	7.9%
Marine Minerals	45,910	34.7%
Marine Construction	40,612	30.7%
Ship & Boat Building	580	0.4%
Marine Transport	15,778	11.9%
Coastal Tourism	19,130	14.4%
Total	**132,495**	**100%**

Summary: Ocean Economy as Share of National GDP

OCEAN ECONOMY GVA	NATIONAL GDP	OCEAN ECONOMY % OF GDP
R132.5 bn	R4,830 bn	2.74%

Source: Statistics South Africa, Operation Phakisa Ocean Economy Satellite Account (2018)

◆ **South Africa's ocean economy is dominated by marine minerals (35%) and construction (31%).** In Small Island Developing States (SIDS), tourism and fisheries typically dominate instead — reflecting very different economic structures and policy priorities for ocean-based sustainable development.
