# From Accounts to Policy

Three account types feed six policy instruments

## ACCOUNTS

### ☐ Extent Account

Area (ha) of each ecosystem type and changes over time

### ★ Condition Account

Indicator scores normalized to 0–1 against references

### ♦ Services Account

Physical flows and monetary values of ecosystem services

## WHAT THEY TELL YOU

- ▶ Are we losing or gaining ecosystem area? Where?
- ▶ Is ecosystem health improving or declining? Which indicators?
- ▶ What is the economic contribution? Who benefits?

## POLICY INSTRUMENTS

### 🌍 SDG 14 Reporting

Track progress on ocean targets

**Extent + Condition**

### 🌱 NDC / NBSAP

National climate and biodiversity commitments

**All three accounts**

### ⚓ Marine Spatial Planning

Zoning and use allocation decisions

**Extent + Services**

### ★ Blue Finance

Blue bonds, debt-for-nature, PES

**Services (monetary)**

### ▲ MPA Management

Effectiveness monitoring and adaptive management

**Condition + Extent**

### ◆ Blue Economy Strategy

Sustainable ocean economic planning

**All three accounts**

★ Build once, report everywhere.

# All Ocean Accounts Connect to Policy

Beyond SEEA-EA: the full framework serves all policy needs

| ADDITIONAL ACCOUNTS | POLICY INSTRUMENTS |
| --- | --- |
| ☐ **Ocean Economy (OESA)**<br>GVA, employment, and trade by ocean sector | **Blue economy strategy**<br>Investment decisions, Sector planning, SDG 8<br>Ocean Economy (OESA) |
| ★ **Ocean Tourism (OTSA)**<br>Tourism expenditure, visits, and revenue by coastal zone | **Tourism master plans**<br>Coastal zone management, Revenue projections<br>Ocean Tourism (OTSA) |
| ♦ **Waste & Emissions**<br>Pollution loads, solid waste, and greenhouse gas flows | **Pollution regulations**<br>SDG 14.1, MARPOL compliance, Waste management plans<br>Waste & Emissions |
| ▲ **Social & Governance**<br>Wellbeing, livelihoods, equity, and cultural connections | **Equity & community policy**<br>FPIC, Co-management, Distributional analysis, Community engagement<br>Social & Governance |

**★ One integrated ocean accounting framework serves all policy needs. Build the accounts once, apply them across multiple policy instruments.**
